

Salesforce Platform Services

Salesforce is increasingly moving into diverse technology and business areas. Therefore, it requires more and more know-how to achieve the best possible results from the various clouds and from the different subject areas.

BearingPoint Salesforce Platform Services is the ideal partner to get all your challenges fully addressed and solved by experienced experts. In addition to consulting and business support, our architects assist with planning and reviews, we implement changes with our developers, and we fully handle support. All this comes with a single point of contact and customized service for you.

Convince yourself of our extensive expertise for SalesCloud, ServiceCloud, MarketingCloud, CommunityCloud, CommerceCloud, TableauCRM, Talend, Mulesoft, Pardot, and many more and benefit from our experience in the successful implementation of numerous projects in a wide range of business sectors.

Five good reasons to choose BearingPoint as your Salesforce partner:

The right solutions when it matters

Our expertise and responsibility know no system boundaries, our technicians have comprehensive know-how with all current technologies and interfaces. If necessary, we are there for you – day and night, 365 days a year.

We take responsibility

We take full care of your Salesforce landscape, with preventive support concepts, continuous improvement across all levels, and sustainable best practices, we not only increase your output but also sustainably reduce costs.

Full flexibility and transparency

Whether directly effort-based or as a complete fixed price, all our service components can be booked individually according to your needs.

Trust our highly qualified experts

With us on your side, you won't end up in anonymous call centers, here you will be looked after in all areas by professionally trained, certified, and experienced technicians who will always take care of your request directly and personally. And they will do so until you are fully satisfied.

Everything from one source

Starting with support in the design of relevant processes, the implementation of campaigns, implementation of functionalities and improvements, comprehensive support up to user training. You get everything from a single source, efficiently and straightforwardly.

About BearingPoint

BearingPoint is an independent management and technology consultancy with European roots and a global reach. The company operates in three business units: The first unit covers the advisory business with a clear focus on five key areas to drive growth across all regions. The second unit provides IP-driven managed services beyond SaaS and offers business critical services to its clients supporting their business success. The third unit provides the software for successful digital transformation and regulatory requirements. It is also designed to explore innovative business models with clients and partners by driving the financing and development of start-ups and leveraging ecosystems.

BearingPoint's clients include many of the world's leading companies and organizations. The firm has a global consulting network with more than 10,000 people and supports clients in over 75 countries, engaging with them to achieve measurable and sustainable success.
